- 4. Good News Report:** We have 1124 face to face students and 450 virtual. Boys golf finished 322. We had an excellent turnout.
 - a. **Graduation:** This has finally been put to bed. For the students that chose to participate, it was such a great ceremony! Each student got the moment with the family to take photos on stage. In the mist of COVID 19 this was the right call.
- 5. Public Comment:** Ryan King addressed the council about orientation. There are plans in the works for a virtual orientation for students. Teacher videos must be done by the 21st. Students should be able to access their schedules by this date. Mr. King mentioned that he has spoken to a realtor about them doing a virtual tour of our building for the orientation video for a nominal charge.
- 6. Review Student Handbook:** Everything looks ok but if you see any problems let Mrs. Lusby know.
- 7. Recommendation to remaining ESS money to purchase Chromebooks:** Based on 1634 students our Section 6 total for the 20-21 year is \$134,178. With the salaries being smaller and huge overtime charges and the adjustments, our total is now \$137,023. We plan not to get into any overtime this year. Our ESS Allocation balance is \$6475.67. We are looking to buy 60 new chrome books with this money. They are not DELL. They will be HP. For this reason, we need to move the monies into the Operational Fund. Ed Davis is setting up 16 computers for students to reserve to use in their facility. Now our families can access our school wi-fi in the parking lot here at school.
Make a motion to Approve the move of \$6,475.67 ESS monies to the Operational Fund.
