SCHS Important Terms for Virtual Learning

Term	What it means	What this looks like at SCHS
Asynchronous	Any activity that is not being done in “real time.”	Every course will have 3 asynchronous lessons that are premiered for students by their teacher on certain days/times. Please refer to the teacher syllabus or check with the teacher on when you can expect these videos to be available each week in their Google Classroom.
Synchronous	Any activity that is happening in “real time.”	Students will meet with their teacher and class in a zoom meeting based on the above schedule. (<i>i.e. SCHS students will meet in real time with their 1st period teacher on Mondays and Wednesdays at 10 am</i>) Teachers will utilize this “flipped classroom” approach to address misconceptions, remediate and enrich student learning.
Connection Time	Any additional time outside of the synchronous schedule that will be used to connect with small groups or individual students.	Teacher Zoom opportunities for one on one or small group time with students. Teachers may schedule students and/or students can set up appointment times with their teacher. Each teacher will let students know how to get in touch with them. <i>Some examples of connection time are:</i> Student/Teacher conferencing via Zoom or phone call, RTI, Standards Remediation, Enrichment, CARD TIME
Learning Modes	The different environments that students can learn in this year.	Virtual- everyone returns to virtual on 1/04/21 Face to face- starting 1/25/2021 Paper/pencil- (see below chart)
Flipped Classroom	Students engage in pre-recorded (asynchronous) lessons on their own. They are able to watch as many times as they need and take notes on their questions. In class time (synchronous) learning is then focused on deeper learning from the videos in forms of discussion, projects, focused practice activities, etc.	Pre-recorded lessons 3 times a week for most courses, synchronous class times with each class 2 times a week via zoom.
